Dear Anthony

This is a personal thank you and expression of gratitude from my wife and me on the excellent work and follow up service that your company undertook in recently re-surfacing two bathrooms in our unit.

The quality and standard of work and the final product was of the highest order; it was done within the agreed timeframes and to the specifications required. The bathrooms look great and will certainly contribute towards increasing the value of our property.

We are also very pleased with the courtesy and professionalism shown by you and your staff and it was a pleasure to deal with a company that puts its customers first.

We wholeheartedly recommend anyone who is wishing to re-surface their bathrooms to consider using your company for the work and we wish you well in your company's future endeavours.

Yours sincerely
